

GSA Acquisition Management for Professional Services

REFERENCE GUIDE

Our new business line responds to the demand for acquisition support beyond IT and network services. It combines our proven expertise in acquisition, project and financial management solutions with the efficiencies of our Multiple Award Schedule contracts. For both our existing technology customers and current direct Schedule users, we can better support program requirements in the areas of engineering, management improvement and logistics. If you require contracting expertise to access one or more of these Schedule offerings, please call us to see how we can customize a solution for you.

*Engineering, Management and Logistics Services can now
be acquired through the GSA Federal Technology Service.*
